

6th Annual Meeting ASOCHIN

Hotel Santa Cruz, Colchagua

November 15th

10:15 - 10:30	Welcome - Dr. Daniela Sauma
10:30 - 11:30	<i>"Harnessing the healing power of macrophages, a journey aided by epigenomic and high-dimensional biology approaches."</i> Dr. Laszlo Nagy , Johns Hopkins University School of Medicine.
11:30 - 13:00	Symposium: New ASOCHIN Members
11:30-12:00	<i>"Role of meningeal lymphatic vasculature in homeostasis and disease of the central nervous system".</i> Dr. Noelia Escobedo , Universidad Autónoma, Talca.
12:00-12:30	<i>"The relationship between periodontitis and type 2 diabetes mellitus: the role of extracellular vesicles".</i> Dr. María Luisa Mizgier , Universidad de los Andes.
12:30-13:00	<i>"Nanoparticles and immunomodulators as therapeutical strategies to prevent Respiratory Syncytial Virus and Bovine Respiratory Disease Complex".</i> Dr. Fabián Díaz , Iowa State University.
13:00 - 13:30	Sponsor visits
13:30 - 15:00	Lunch Break
15:00 - 16:00	Symposium: Counter-attacking self-attack: therapeutical strategies in autoimmunity
15:00-15:30	<i>"Immunomodulatory effect of ilex paraguariensis over immune cells and its impact in inflammatory diseases".</i> Dr. Andrés Herrada , Universidad Autónoma, Talca.
15:30-16:00	<i>"The Yin and Yang of Interferon-gamma in Experimental and Human Multiple Sclerosis".</i> Dr. Rodrigo Naves , Universidad de Chile.
16:00 - 17:00	Coffee Break
17:00 - 17:20	Sponsor Session BD
17:30 - 18:30	Symposium: Macrophages, the bad, the ugly and the good in the inflammatory response!
17:30-18:00	<i>"Macrophage mediated inflammation resolution"</i> Dr. Bruno Menarim , University of Kentucky.
18:00-18:30	<i>"D-lactate: A Potential Danger-Associated Metabolic Pattern"</i> Dr. Rafael Burgos , Universidad Austral de Chile.
18:30 - 20:00	Poster Session
20:00 - 21:00	REUNION SOCIOS ASOCHIN: new board elections.

6th Annual Meeting ASOCHIN

Hotel Santa Cruz, Colchagua

November 16th

08:45 - 09:00	Sponsor Session MERCK
09:00 - 10:00	<i>"The oral microbiome as a diagnostic tool for periodontitis: an advance in clinical metagenomics".</i> Dr. Inmaculada Tomás Carmona , Universidad de Santiago de Compostela.
10:00 - 10:40	Symposium: The oral-gut-brain axis
10:00-10:20	<i>"Looking for the association between oral health and the brain".</i> Dr. Jaime Díaz , Universidad de Chile.
10:20-10:40	<i>"Mast Cells at the Crossroads of Enteric Nervous System and Intestinal Permeability, in the Gut-Brain axis."</i> Dr. Carol Beltrán , Universidad de Chile.
10:40 - 11:20	Coffee Break
11:20 - 13:15	Selected Short Talks
13:15 - 14:45	Lunch Break
14:45 - 15:00	Sponsor Session Genexpress
15:00 - 16:00	Symposium: Looking at inborn errors of immunity!
15:00-15:30	<i>"Molecular defects in inborn errors of immunity"</i> Dr. Cecilia Poli , Universidad del Desarrollo.
15:30-16:00	<i>"Molecular mechanism of C terminal COPA mutations"</i> Dr. Isabelle Meyts , University of KU Leuven.
16:00-16:30	<i>"Rising of secondary immunodeficiency: cause and effect."</i> Dr. Nicole Le Corre , Pontificia Universidad Católica de Chile.
17:00 - 18:00	Coffee Break
18:00 - 19:30	Poster Session
20:00 - 23:30	Dinner

6th Annual Meeting ASOCHIN

Hotel Santa Cruz, Colchagua

November 17th

09:00 - 10:30

Symposium: Cellular architecture in tumor immunology

09:00-09:30

"Cellular Archetypes in the Microenvironment of Human Metastases: unraveling insights through Single Cell Genomics and in vitro models."

Dr. Hugo González, Fundación Ciencia y Vida.

09:30-10:00

"MHC class I polypeptide-related sequence A (MICA) - NKG2D receptor axis in immuno-oncology."

Dr. María Carmen Molina, Universidad de Chile.

10:00-10:30

"Active Immunotherapy in the promotion of a CD8+ T cell mediated anti-tumor response."

Dr. Mercedes López, Universidad de Chile.

10:30 - 11:30

Coffee Break and Networking

11:30 - 13:00

Symposium: Metabolites from microbiota -and other sources- on homeostasis and disease

11:30-12:00

"The role of FTO protein as key factor in the interaction between obesity and the immune response against colon cancer".

Dr. Glauben Landskron, Universidad Finis Terrae.

12:00-12:30

"Host microbiome on lung cancer".

Dr. Erick Riquelme, Pontificia Universidad Católica de Chile.

12:30-13:00

"IL-33 as modulator of the intestinal metabolite's profile".

Dr. Karina Pino-Lagos, Universidad de los Andes.

13:00 - 14:30

Lunch Break

14:30 - 15:30

Symposium: Stromal-Immune cell interactions in health and disease

14:30-15:00

"Location and function of tissue-resident lymphocytes during inflammation and fibrosis".

Dr. Kelly Cautivo, Gilead Sciences.

15:00-15:30

"Transcriptional regulation of the hemogenic endothelium"

Dr. Carlos Lizama, University of California San Francisco.

15:30 - 16:00

Remarkable Career in Immunology Award

16:00 - 17:00

Poster and Short-Talk Awards, presentation of the new Board and Closing Remarks
